

Docket No. AVERP3012USSerial No. 09/915,624**REMARKS**

Applicant submits herewith a proposed revised new drawing Fig. 3A, in which a release liner described in the specification at page 52, lines 17-27, has been shown.

In the Advisory Action mailed July 08, 2004, the Examiner stated that the release liner as shown in proposed Fig. 3A was not described in the specification as shown, i.e., with the edge lifted. The originally submitted proposed Fig. 3A simply showed the release liner 64 (then numbered 62) in a partially removed state. Applicant submitted a new proposed Fig. 3A in which the release liner 64 (then numbered 62) was depicted as fully attached to the layer to which it is applied.

In the Advisory Action mailed 25 August 2004, the Examiner stated the reference number 62 had already been used and that the proposed amended drawing would be approved if submitted with a non-redundant reference number. Applicant submits herewith a revised drawing with the release liner referred to by reference numeral 64.

In addition, the specification is amended herein to correct the reference number for the release liner shown in Fig. 3A from 62 to 64. This amendment is made and shown herein based on the paragraph as it was amended and entered in the Reply to Office Action filed on 01 June 2004, not as the paragraph was originally drafted.

Accordingly, Applicant respectfully requests the Examiner to indicate his approval of this proposed new drawing Fig. 3A. In the event issues arise as a result of the filing of this paper, or remain in the prosecution of this application, Applicants request that the Examiner telephone the undersigned attorney to expedite allowance of the application. Should any additional fees be required for the filing of this paper, the Commissioner is authorized to charge those fees to Deposit Account #18-0988, Docket No. AVERP3012US.

Respectfully submitted,  
RENNER, OTTO, BOISSELLE & SKLAR, LLP
